Approved For Release 2004/06/24: CIA-RDP79M00098A000300b200124 065332 Executive Registry 2 August 1973 **Executive Registry 2 August 1973 **THROUGH: General Allem SUBJECT: Extension of Deadline for CCPC Study 1. Regretfully, I request an extension of the deadline for completion from mid-August to mid-Suptember. The Chairman of the working Group has pled for this delay on behalf of DIA, NSA, and State Department for what I believe are valid reasons. One is the fact that propagation tests must be conducted in order to provide information concerning alternate means or sites for collecting information now obtained by facilities in Such tests will require at least two weeks with an additional week for analysis. In addition, the evaluation of the product of the facilities in is a time-consuming process and the madysts in DIA and State maintain that they cannot do a thorough job within the allotted time frame. 2. I have discussed this with Dr. Ray Cline who says that a slippage of one month in his receipt of the finished CCPC report will cause him no problem. (He had originally requested the report by the end of August.) I anticipate that the report can be considered at the USIS meeting of either 20 or 27 September.	BOY/ID
MEMORANDUM FOR MR. COLBY THROUGH: General Allen SUBJECT: Extension of Deadline for CCPC Study 1. Regretfully, I request an extension of the deadline for completion of the CCPC Study on from mid-August to mid-September. The CHAITMAN OF the WORKING Group has pled for this delay on behalf of DIA, NSA, and State Department for what I believe are valid reasons. One is the fact that propagation tests must be conducted in order to provide information concerning alternate means or sites for collecting information now obtained by facilities in Such tests will require at least two weaks with an additional week for analysis. In addition, the evaluation of the product of the facilities in is a time-consuming process and the analysts in DIA and State maintain that they cannot do a theorough job within the allotted time frame. 2.
